Vernon Golfers Asked to Ratify Irrigation Plan

When the members of the Vernon Golf Club hold their annual meeting in the Scout Hall supper room on Thursday evening, February 28, the principal topic for discussion probably will be the proposed plan for watering the course. The present executive has contacted two experts on irrigation and a plan has been submitted. This provides for portable water line and the pumping of water supply from the present well, which is said to be adequate. The cost of the project under this scheme is considerably lower than was first anticipated.

Officers of the club for the coming year will be elected at the meeting and reports of the past season presented.

Golf Balls Coming
Some of the brightest news for golfers is that the first synthetic golf balls have been received in Vernon and it is anticipated that balls made of natural rubber will be available after June 1. It is also expected that clubs will be easier to secure this summer.

Trail Juniors Will Meet Clippers at Nanaimo Tonight

Heavy Hockey Diet for Vernon Soon

Dates for hockey finals and semi-finals in midweek, juvenile and intermediate divisions have been announced this week.

On February 23 and 25, Salmon Arm and Vernon juveniles and midweek will play here for the Okanagan title and the right to meet the Kootenay and Coast semi-finalists. The B.C. semi-finals will be played here on March 12 and 13. These will be two game total points series and midweek and juvenile games will be played as double-headers.

Kamloops and Revelstoke Intermediates play off in Revelstoke on February 22 and 23. The winner plays Prince George on February 26 and 27, at a place to be decided. The victor in this northern series will meet Vernon to decide who will play the B.C. title holder. These latter games will be played in Vernon on March 2, 4 and 5.

The Northern B.C.-Okanagan winner will meet the Kootenay winner in the B.C. Cup semi-finals on March 7, 9 and 11. The Coy Cup finals between the Interior champion and the Coast will be played in Vernon on March 14, 16 and 18.

The Western Canada Finals are slated for Vernon on March 21, 23, 25, 27 and 29. These will feature the B.C. title holder and the Alberta-Saskatchewan winner.

That is it, and it is a lot.

Aces Win; Grillers Lose Kelowna Hoop Contests

Nick's Aces, Intermediate A, and the Grillers, Senior B, met the Kelowna Shamrocks and the Kelowna Senior B basketball exponents at Kelowna Thursday night of last week. The two towns split the honors evenly. The Aces outdid the Shamrocks 34-28, while the Grillers dropped the decision to the Kelowna club 27-24.

Despite their win, the Aces were not playing up to the standard they have set in recent games. Their shooting was off and at certain periods in the play they slowed down considerably. The Shamrocks produced several high speed attacks and threatened the Vernon team's lead on several occasions, but the Aces recovered faster and more effectively.

Vernon held a four point lead at the end of the first quarter but Kelowna came back in the second and at half time the score was tied 16-16. A third quarter attack gave the Aces an eight point lead over the home club and they maintained a substantial hold on the score although the Shamrocks outpointed the visitors 10-8 in the final quarter.

Otto Munk stood out brilliantly in the game. His 18 points were more than double those of the next highest scorer of the game, Bud Weddell, of Kelowna, who netted eight. Munk scored 100 percent on six free shots. Weddell was dismissed from the game in the final quarter after a disagreement with referee Charlie Pettman.

Pl Campbell sparked the Kelowna Senior B quintet to their win. One of the finest hockey players in the province, Campbell exploited his experience to out-foot some of the younger players on the Vernon team and although his was not the top scoring performance he constantly led the Kelowna team out of their difficulties when the Grillers began to threaten.

The Vernon line-up has lost two valuable players in Bob Carter and Ray Lizzie and they were short one or two regulars in the Thursday game, but they almost picked up a win.

Kelowna led 12-7 in the first quarter and were ahead 16-11 at half time. The Grillers stepped up their attack in the third quarter at the end of the period were nudging Kelowna 19-20. Play in the final frame was almost equally balanced but Kelowna's Hamelen rapped home the basket which maintained their lead.

The Grillers' Jack Ingles, just to be consistent, was top point collector of the game. Vernon's No. 2 man was Dick McCuskey, recruited from Vernon Intermediate B ranks for the contest.

Grillers are still thanking the fates for Kelowna's failure to score on 12 of their 13 free shots.

The teams:
Aces—O. Munk, 18; Johnston, 3; Koshman, 6; Smith, 3; McMaster, A. Munk, 4; Ikeda; M. McCuskey, Shamrocks—Leckie, 4; Harding, 3; Ferguson, 3; Sauder, 2; Abbott, 2; Stewart, 2; Tostenson, 3; Weddell, 8; Currell.

Kelowna Senior B—Campbell, 6; Clarke, 2; Cross, 3; Bach, 6; Ells; Snowsall, 6; Hardy, 2; Wynne; Loudon; Reid; Hamelen, 10.

Grillers—Stephens; Powie; French, 9; Ingles, 11; Seaton, 2; R. McCuskey, 6; Ward, W. Ingles. Officials: C. Pettman, W. Willis (O. Munk).

First Round Hoop Play-Offs Begin

Dates for the first round basketball play-offs have been announced this week. On Friday, the Kelowna Senior "B's" will meet the Vernon Grillers here and a return game will be played in Kelowna on March 2. This is a two-game total point series.

For the Vernon fixture, an exhibition preliminary will feature the Kelowna and Vernon Juniors. This will be the first game of the season for the local juniors who are sponsored by the Lions Club.

On Saturday, February 23, Nick's Aces, Inter A, and the Kelowna B quintet will travel to Kelowna for the first game in the first round of their play-off divisions. The return games will be played here on March 1.

The Basketball Club has decided to charter a bus for spectators for the Saturday game. As the Vernon boys are going strong for the titles this season, it is felt that they should take along as much moral support as can be mustered. Mr. Stewart Gray is accepting reservations for seats in the bus.

Trail Defeats Vernon Juniors Two Straight In Semi-Final Series

Trail Juniors, who defeated the Vernon Rotary Juniors two games straight in the Okanagan-Kootenay Junior hockey semi-finals here, met the Nanaimo Clippers in Nanaimo, tonight, Thursday, in the first game of the three-game series for the provincial title. The Kootenay team played two very smart games here and many local hockey pundits have picked them to win the B.C. crown.

If they defeat Nanaimo they will travel to Edmonton to compete for the Alberta-B.C. title. If the Clippers win, Edmonton will go to Nanaimo.

The Vernon Juniors threw everything they had into their two games against Trail but their lack of games during the season had taken its toll on them. They had been the material but the stamina was not there. If they had been playing in a league this winter and had had two months of competition behind them, the outcome would have been reversed. Jerry Thomson, Trail coach, is the authority for that statement.

The Trail team took the first game 6-4 and the second 7-1. Monday night's game was the biggest heart breaker for the Vernon team. Trail ran rough shod over them in the second period and killed their chances completely. Added to that, Jim Hood, star centerman, went out of the contest in the first period with a knee injury which reserves were not.

The Secco-Scott brothers line set the pace for the visitors in the first period and scored Trail's initial counter. Vernon held the visitors in fairly close check during the 20 minutes and the one goal advantage Trail held at the end of the time was a fairly good indication of the play.

The second period opened with a display of speed by both teams that probably has not been equalled on Vernon ice for several seasons. The 1300 fans almost ripped the roof off the Arena when Gordon McNaughton scored the equalizer in the first two minutes of play in this stanza.

Trouble set in when Louis Secco scored after a scramble around the Vernon net at the north end of the rink. The Vernon team disputed the goal and when it was allowed, their morale took something of a nosedive.

Trail scored four more goals in the period and Vernon defenceman Frank Netzel and Trail forward, Jimmy Malley became involved in a slight altercation over something or other. Netzel played an outstanding game but he took a lot of punishment, including the loss of a few teeth, so his attitude towards Trail generally was not entirely one of gentleness and light.

While Netzel was off for repairs or a rest from time to time, his defencemen, Jo-Jo Dinardo and Stan Grisdale turned in performances that were inspired.

The last period slowed up considerably, Vernon launched a good many attacks which were mostly snuffed up at Trail's solid defence. The Trail boys were largely content to hang onto the lead they had, although they did slip in one counter, just for the record.

From the Sidelines: A number of the fans have commented on how lovely it would be if just one hockey game were to start this season at the advertised time. The major cause of delay seems to be the net at the north end of the rink. Surely someone might undertake to find a piece of string to fix the oversize holes half an hour before the game instead of at face-off time.

First Period: 1, Trail, Secco (A. Scott), 14:45.
Penalty: Corrado.
Goals on Goal: Trail 5, Vernon 6.
Second Period: 1, Vernon, McNaughton, 21:50; 2, Trail, Secco, 28:55; 3, Trail, Corrado (W. Scott), 29:10; 4, Trail, Secco (A. Scott), 34:15; 5, Trail, Malley (Ircandia), 36:43; 6, Trail, A. Scott, 37:32.
Penalties: Malley, Netzel, Milne.
Goals on Goal: Trail 9, Vernon 6.
Third Period: 7, Trail, Ircandia, 56:24.
Penalties: Netzel, Corrado.
Goals on Goal: Trail 4, Vernon 5.

First Encounter Penalties Costly

A disastrous spate of penalties in the second period contributed heavily to the Vernon Rotary Juniors defeat in the first game of the series with Trail. The local club played nine of the 20 minutes with a man in the penalty box and the strain took heavy toll of the forward strings. Trail, as a consequence, stepped out and eliminated the Vernon club's first period lead.

The Vernon boys set the pace in the first period when Stan Berry took a pass from Jo-Jo Dinardo at the Trail blue-line and fired a long shot which opened past Bruce Han in that net. John Ircandia brought Trail onto the scoreboard a few minutes later but that was the visitors' last threat in the period. Vernon held the 3-1 advantage at the end of the time.

The game the second period and the beginning of the end for Vernon. First of all, Stan Netzel, who played an outstanding game on the Vernon defence, was dismissed for two minutes for tripping. He had hardly returned to the ice

Ed. Catalano entertained hockey fans with a neat exhibition of figure skating between periods Monday night.

Making a Hit!

The Vernon Egg & Poultry Plant is now turning out a poultry product which has received high commendation on both the Vancouver and Vernon markets.

The Vernon Egg & Poultry Plant is one of Vernon's post-war industries. It pays city taxes, city license and city rates. It also gives local employment.

The Vernon Egg & Poultry Exchange sold over \$25,000.00 worth of Eggs last year. This year it expects to equal last year's record. Since opening its poultry division a few weeks ago it has shipped over \$1,000.00 worth of Poultry.

FARMERS ARE URGED TO SPEED PRODUCTION OF BOTH EGGS AND POULTRY

VERNON EGG & POULTRY EXCHANGE

G. P. BAGNALL, Manager.

Thank You!

We would like to take this opportunity of expressing our appreciation for your co-operation and the orderly manner in which you made your purchase of Nylons in Our Store on Tuesday, February 19th.

We realize that our first quota of Nylons was not sufficiently large to enable all our customers to purchase a pair. However we expect a further supply within a reasonable time.

Soft Ice Halts Curling In Salmon Arm Contests

SALMON ARM, Feb. 18.—The Salmon Arm curlers have enjoyed a good spell of curling but the soft weather of the past few days has put a stop to play in the Legion Cup Competition. Last week P. A. Ruth's rink won the S.A.F.E. cup defeating Dr. S. L. Bennett's in the final.

The winning rink was R. White, lead, L. Askew, second, R. Cameron, third, P. A. Ruth, skip. The second rink was A. B. Ritchie, M.L.A., lead, W. H. Smith, second, L. Nelson, third, and Dr. S. L. Bennett, skip.

Both teams had only dropped one game during the competition. Salmon Arm hopes to have at least four rinks playing in the Vernon Bonspiel in March. Two rinks of Salmon Arm curlers journeyed to Enderby last Sunday and played four friendly games with the latter club. Although the visitors were only able to get the long end of the score in one game, the Salmon Arm boys enjoyed the hospitality of the home club.

Opl. R. Enoch, D.C.O.R., who recently returned from overseas and has been visiting his mother and family in Salmon Arm. He expects his English bride will arrive sometime this spring.

Pte. Ed. Cedarholm, R.C.A.M.C., recently returned from overseas and has been visiting his mother and family in Salmon Arm. He expects his English bride will arrive sometime this spring.

E. Dickson, of the staff of the Salmon Arm branch Canadian Bank of Commerce, has left for his new position at the branch in Chilliwack.

C. P. Nelson returned to Salmon Arm Friday evening from Vancouver where he received his discharge from the active forces.

The Annual Salmon Arm High School dance held last Friday evening, February 15, proved to be up to the standard of previous years. The Drill Hall was tastefully decorated with flowers and streamers, by members of the staff and students. Kew's augmented orchestra of six-pieces supplied pleasing music for the crowd of 250 dancers.

Warn Cattlemen To Rid Herds Of Warble Fly

Unless the warble fly menace is conquered, stockmen face the possibility of having their cattle refused grading at the yards so Dr. Wallace R. Gunn, provincial livestock commissioner, said while in Vernon late last week.

Dr. Gunn was commenting on the campaign being waged in the North Okanagan to eliminate the warble fly. Already graders have refused to handle warble infested cattle, he declared. The Co-operative Creamery is heading the campaign jointly with the Provincial Department of Agriculture. A preventive substance is being supplied free by the government.

New Hospital Need Stressed at Enderby By Board Meeting

ENDERBY, Feb. 18.—The members of the local Hospital Board held their annual meeting in the City Hall on Tuesday evening. Five new hospital contracts were accepted. The secretary reported that a new fire alarm buzz system had been installed, upon the request of the fire marshal. It was also reported that a good amount of wood had been ordered.

Following the meeting the president, F. C. Farmer, declared an open meeting to hear the yearly reports. In his report the president mentioned that the hospital had operated satisfactorily during the past year, although approximately \$1,000 had been written off as old accounts. No new equipment had been purchased during the year but on the whole the hospital was in satisfactory shape.

There had been a marked increase of patients totaling 200 in comparison to the previous year's 197. Mr. Farmer was also pessimistic regarding a new hospital owing to the large sum which would have to be raised by the community and district. Thanks was also expressed to the local doctors for their contributions of linen and supplies during the past year.

Dr. J. Kope also addressed the meeting and expresses his regret that being such a small number present to express their appreciation to the Board for the work during the past year.

In mentioning the nurse problem, he said that although the nurse situation was vital in Enderby, it was not as serious as in some other towns. The set-up at the local hospital was most satisfactory. During the past year up until last Spring four nurses were on the local staff, there are now three employed.

He said, "We have to push and fight for a new hospital, and if we do not get one during the next few years, the possibility will then be nil." The secretary transcribed a most satisfactory financial report in connection with the operating of the hospital last year over the past few years.

Junior Red Cross has 97,500 members among British Columbia's school pupils. Last year the 2,400 members raised more than \$53,000 by their own efforts.

Despite the pessimistic attitude of the president, Dr. Kope still spoke of the hope of having a new hospital in Enderby. It is felt that the amount needed to be raised by this locality after the government grant to build a 30-bed hospital would be \$150,000.

Dr. Kope said, "We have to push and fight for a new hospital, and if we do not get one during the next few years, the possibility will then be nil." The secretary transcribed a most satisfactory financial report in connection with the operating of the hospital last year over the past few years.

Salmon Arm's Tame Deer, "Bambi", Has New Home in Zoo

SALMON ARM, Feb. 18.—"Bambi", Salmon Arm's tame deer whose friendly presence has delighted the children and many adults, has found a new home in the Zoological Gardens at Calgary.

"Bambi" was raised by the Riddle family on the Foothill road and for the past few months has practically stayed in town. Last week she spent a good deal of time in a well kept garden. When the owner noticed that her diet was high priced bulbs and shrubs, a complaint was made.

First intention was to have the animal destroyed but somehow she did a disappearing act.

In the meantime, Dr. S. L. Bennett, president of the Salmon Arm Fish and Game Club, contacted Calgary offering the deer for their zoo. A return wire in appreciation of the offer was received. Subsequently, "Bambi" was captured and safely crated.

She left for her new home on Saturday night when a large crowd of admirers bade her bon voyage.

Sawdust Supply Available Over Price Ceiling

The price ceiling is probably the principal reason for the short supply of sawdust fuel in this city and district. This information was given to The Vernon News this week by Dan Basaraba.

The price of sawdust has been pegged at \$5 a load. Vernon dealers are now going as far as Armstrong and Lumby for their supplies. The price they receive for the loads makes it unprofitable to haul from any greater distances. There is sawdust available at mills in more distant locations but it will not be available until the ceiling is raised on the retail sale price.

Mr. Basaraba does not think that houses heated by sawdust burner units will have to change to another type of fuel but he does believe that further installation of the burners is inadvisable.

So far as wood is concerned, he stated that he has 3,000 cords under contract but his experience of previous years has been that only 50 percent or less of the amount contracted for is ever received.

His advice is that householders should not wait until next fall before ordering wood supplies for the winter. There may be an adequate supply of cordwood but if ordering of wood is left until the last moment, many householders may find that stocks will not accommodate them.

No Nylon Rush Casualties Here

No calls for police were necessary to stem the rush of Vernon women in pursuit of nylon stockings here on Tuesday. In fact, the whole business was very orderly. Those wives who sent their husbands on the nylon foray in order to avoid the rigors of the onslaught need not have bothered. There was no onslaught, though they did expect to find a line of queues.

The longest line of shoppers ran for about half a block along Seventh Street at the Hudson's Bay Company store. The store put the stockings on sale at 10 a.m., 12 noon and at four p.m. About 200 pairs were sold in the first hour, 500 being sold during the day.

The F-M Shop reports it sold out its stock completely and could have a great many more. Allotments were put out at various times during the day to avoid congestion at the counters.

Reports from Vernon store managers are that nylon stockings probably will be available from now on every month. Production of nylon wear is being increased. The greatest difficulty which manufacturers face is securing skilled workers to handle the treating process for the material.

It has been emphasized, too, that nylon stockings are not indestructible. While they are durable, they should be treated with care. Nylon stockings are being used to make parachutes and low gliders. In war, nylon was a national morale builder. Progress marches on stocking feet.

There are 2541 branches of The Canadian Red Cross Society with a membership of nearly two million.

OKANAGAN VALLEY Musical Festival

ANNOUNCING CHANGES IN SYLLABUS

Selections on account of uncertainty of original selections or additions being available.

Class 58 Pianoforte Solo under 14 years

(A) Selection is now deleted. Adjudication will be made on (B) Selection only.

Class 65 Pianoforte Duet under 16 years

Original selection replaced by Spanish Dance No. 1, opus 12, Moszkowski, (Schirmer Edition.)

Classes 59, 61 and 62

Original selection stands in each class, any good edition being now acceptable.

Competitors requiring any further information are invited to communicate with the secretary, Mrs. Hugh Cleland, Penticton.

Enderby Church Women's Group Plans Projects

ENDERBY, Feb. 18.—The members of the United Church Women's Association held their regular monthly meeting in the basement of the church on Wednesday afternoon. There was an exceptionally large attendance, one of the largest that has been recorded at a regular meeting. Mrs. McCausland, president, was in the chair, and Mrs. H. L. Lantz, secretary, read the minutes. It was decided by the members to hold a St. Patrick's Day tea in the church basement in March.

A report from the visiting committee, Mrs. A. Reeves and Mrs. O. Strickland, showed that three members had been visited during the month. The new visiting committee for the month of February is to be Mrs. H. Skelly, and Mrs. S. H. Speers.

Mrs. Percy Wambolt and Mrs. Skelly were in charge of the fancy work and distributed several articles to be worked in readiness for the coming bazaar.

It was decided upon a vote of the members to hold the remainder of the meetings in the basement of the church instead of at the members' homes.

The March meeting will be held prior to the tea which the association is sponsoring. Painters have been busy redecorating the interior of Sutherland's Bakery this week. The bakery, which is one of the modern businesses of Enderby, is having a complete painting job of cream and white accented with black in the tea room.

Harold Garner, who has been employed with the C.P.R. at Revelstoke since his return to Canada, following several years' serving with the Forestry Corps in Scotland, arrived in Enderby on Wednesday to visit the home of his parents, Mr. and Mrs. Fred Garner.

Miss Dorothy Sharp, of Vernon, was a visitor to Enderby on Wednesday, visiting with local friends. A pleasant little Valentine party was sponsored by the pupils of Mrs. Abercrombie, grades 3 and 4 in the Enderby Public School, on Thursday afternoon. Parents and friends attended in a large number, and the proceeds from the afternoon were in aid of the "Junior Leaves" Red Cross.

Bright red and white heart aprons, the handiwork of pupils and parents, made an attractive setting for the young members serving tea. The arrangements of the afternoon were entirely taken over by the pupils themselves, and revealed excellent training on the part of their teacher. The serving was especially well done, and parents and friends expressed their delight and pleasure of the way the arrangements had been handled.

Mr. and Mrs. Eric Grayston returned home this week following a short visit to Vancouver, where they visited with friends and relatives.

Endersby News Items

Mrs. Waboy was a visitor at the home of her daughter, Mrs. McAnland, on Friday afternoon before returning by motor to her home a few miles north of town on the Endersby-Salmon Arm Road. Mrs. George Johnson accompanied by Mrs. Jim Sutherland, left for Vancouver, where they will spend a few days' holiday. From there, Mrs. Johnson and Mrs. Sutherland will continue on to Seattle where the former will look after beauty shops in the city during the absence of

Mrs. Johnson to have the interior of her beauty shop in Endersby completely redecorated and refurnished. Arthur Stongquist, of Salmon Arm, motored to Endersby on Saturday evening to pay a short visit at the home of his mother, Mrs. B. Stongquist. Upon his return he was accompanied by Mrs. Stongquist, who spent the week-end with Salmon Arm and met the train on Sunday morning to greet her daughter, Helen, who stopped over for a few minutes while on her way to Eastern Ontario, where she will make her home following her marriage in Vancouver last Saturday afternoon.

Town and District

Mrs. Ted Byers, of this city, has as her guests for a month or six weeks her sister, Mrs. A. T. Wilson, and Brian, of Forest William Mont.

P. E. French, president of the B.C. Federation of Agriculture, left on Saturday for Vancouver to attend the regular meeting of the Federation's directors.

Friends in this city of George Sparrow, who is now with Standard Oil at Nelson, will be interested to learn that he will be visiting Vernon early next week for several days.

Mrs. Thelma Heggie left on Saturday for Vancouver, where she plans to visit for the next month before continuing to Vancouver Island, where she will make her home at Cowichan. There she is a partner in the operation of a summer resort.

J. H. Watkin returned to this city on Wednesday evening after having spent the past three weeks in Eastern Canada. He attended Automobile Dealers' conventions in Toronto and Windsor and while in Windsor visited the Ford plant there.

Dr. and Mrs. H. J. Alexander have as their guests this week, Mrs. Alexander's uncle and aunt, Mr. and Mrs. J. C. Stevens, of Centerville, New Brunswick. Mr. and Mrs. Stevens are visiting here while on their way back to the Maritimes after having spent a holiday in Mexico and Southern California.

George Lawley is leaving today, Thursday, for Spokane and other points in the United States Pacific Northwest to investigate the possibilities and latest methods of fur storage. His firm, the Vernon Steam Laundry and Dry Cleaners, is contemplating establishing such a service in this city.

Joe Harwood left Tuesday night for Victoria. There he will attend the opening ceremonies of the legislature today, Thursday. The last time Mr. Harwood attended an opening of the provincial parliament he achieved prominence in Coast papers for having fallen asleep during one of the opening speeches. The action was described as the most adequate commentary on the proceedings of the moment.

Mrs. Harry Collins, of Edmonton, Alta., is spending a month's holiday in Vernon with her son-in-law and daughter, Sgt. and Mrs. E. Nantals. During her stay Mrs. Collins plans to visit in Kelowna.

Mrs. J. T. Fowle is visiting in Vancouver where she joined Major Fowle, who receives his discharge from the army this week. They are expected to return to Vernon at the week end. Major Fowle was a member of the staff of Shaughnessy Military Hospital up to the time of receiving his discharge.

Mr. and Mrs. Archie Carswell were hosts at a dinner at their home Monday evening for several of the returned veterans. The returned men honored were Leonard Postill, Ernie Thompson, Elmer Carswell, Jack Carswell, Amos Baker and Charlie Mutas. Fourteen sat down to dinner and afterwards they were joined by several friends to spend the evening playing cards.

Capt. and Mrs. J. A. Townsend left on Monday for Toronto, where they will make their future home. Capt. Townsend, who served overseas with the Irish Regiment, returned to Canada a month ago and since that time has spent his leave here at the home of his wife's parents, Mr. and Mrs. R. Ferguson, except for visits with Mrs. Ferguson to Prince George and Penitence.

Mr. and Mrs. John Johnson left for Vancouver on Thursday evening of last week to spend a short holiday. While at the Coast city, Mrs. Johnson will be a special guest of the Vancouver Press Women's Club, as a recognition of her editorial work as news editor of The Vernon News, holder of the Mason Trophy. She will also attend the annual meeting of the B.C. Red Cross Society.

C. A. Hayden, editor of Country Life, left on Saturday for the Coast where on Monday he attended the annual meeting of the Coast Growers' Association at Abbotsford, on Tuesday the directors' meeting of the B.C. Federation of Agriculture in Vancouver and where today, Thursday, he plans to attend the annual meeting of the B.C. Sheep Breeders' Association in Chilliwack. He plans to return to Vernon next Tuesday.

Mrs. D. D. McDonald, who learned this week that her husband, Sgt. McDonald, has arrived in Canada from overseas, plans to leave at the week end for Vancouver, where she will meet him on Tuesday. Accompanying Mrs. McDonald will be her two-year-old son who was born after his father left for overseas. After a holiday at the Coast with Mrs. McDonald's brother, William Fidlerney, they will return to Vernon and then leave for Glenisde, Saskatchewan, to visit with Sgt. McDonald's parents.

After two years' service with the Royal Canadian Navy, AB, Archie Leek, accompanied by his bride of a few weeks, returned to his home in this city on Tuesday. They will visit here at the home of A. B. Leek's mother, Mrs. S. Leek, for a month and then he will report to Vancouver for his discharge. The young couple were married in St. Johns, Newfoundland, where AB Leek was stationed for a year and a half, shipping from there to the Old Country. Although their future plans are not definite they expect to make their future home in Vancouver.

Older residents of this city will learn with regret of the death in St. Johns, Newfoundland, of AB Leek was stationed for a year and a half, shipping from there to the Old Country. Although their future plans are not definite they expect to make their future home in Vancouver.

A visitor to Vernon on Friday and Saturday last who was very interested in the development of the town and district was Lieut. Tony Merrill, R.C.N.V.R., of Montreal. Lieut. Merrill attended elementary grades of Vernon schools for several years prior to leaving this city with his family just after the end of the last war. He was a member of a ship's company that took a naval vessel round the Panama Canal for decommissioning at Esquimalt, and is returning to the service. In civilian life, he is an executive of Ronalds Advertising Agency Ltd., Montreal.

Members of the Vernon City Club were hosts on Wednesday night to visitors from the Kelowna Club. About 24 visitors were entertained.

Miss Betty Jane Fleming returned to her home in this city on Friday after having completed three years as a nurse-in-training at the Royal Columbian Hospital in New Westminster.

Miss M. Illingworth, provincial commissioner of the Girl Guides, and Miss Hannah, who is in charge of Girl Guide training, arrived in this city on Wednesday from the Coast. They will spend three days here during which time they will meet with Guides and their leaders in Vernon and district.

F. J. Townsend, Canadian Legion War Services, Vancouver, left on Wednesday night for Vancouver after having spent several days in this city in connection with the winding up of the activities of the C.W.S. camp here. It is understood that the Vernon building will be closed by the end of March.

Miss Helen McMahon returned home this week from Vernon, where she spent a few days' holiday, the guest of her sister, Mrs. E. Queneau.

Trade Licence Applications Granted by City

A number of applications for trade licenses and offers for property were considered by the City Council on Monday evening.

Two lots on Belt Street were sold to P. Esaraba, who offered the assessed value of \$325 and who intends to construct a dwelling this year. A "substantial building" will be constructed at the corner of Whetnam and Price by a client of R. Fitzmaurice, who offered \$560.

A. DeLorme's application to construct a store on Seventh St. south was reported on by the building inspector, who favored creation of a business section and a consequent rezoning and revaluing of land. The matter was referred to the City Hall committee.

Property purchased last week at the corner of Mission and Barnard will house a bowling alley in the basement and a producers supply and furniture store. Messrs. Sel Monesse and A. Defoe were granted a license for the alley and the owner of the property, Mike Morohuk, a license for two stores.

Fred Widner, a veteran, may act as a chimney sweep and Leo Valouch is re-entering the contracting business he gave up in 1940 to join the forces. J. O. Muir is licensed as a herbalist.

Alderman E. Bruce Cousins made some strong statements and will return to Vernon and then leave for Lindsay and Kildon, who protested the city's action in cutting off a water supply pipe to property owned by their clients, Mr. and Mrs. Leopold Price. Alderman Cousins commended the city's action. "I have interviewed Mr. Price on two occasions and he is not a reasonable man for one who is getting something for nothing," he declared.

Plans for a new bathhouse at Kalamalka Beach were laid before the Council by Alderman Walter Bennett, chairman of the parks committee. The structure, to cost an estimated \$25,000, will have all modern facilities and a cement floor. The plans were approved.

Mayor David Howie was authorized to represent the city as a member of a hospital delegation planning to visit Victoria.

The number of small stores springing up just outside the city limits offer direct competition to city taxpaying businesses. His Worship commented. He is to make enquiries to see if some control cannot be exercised. The board of health must see that all sanitary laws are observed.

Board of Trade

(Continued from Page One)

of the tourist dollar," he declared. Dealing with the Bureau's work, Mr. Rowbottom cited the expenditures for publicity, which reached a figure of \$42,000 in 1941. Then in response to government requests only token campaigns were waged for the duration of the war. With the war over, a vigorous drive on a larger scale than ever will be undertaken. In the United States 151 tourist agencies plan to spend an average of \$155,000 each to attract business this year. The bureau's activities are not alone confined to newspaper and magazine advertising. A large film library is being built up with the objective of distributing colored pictures in Canada, the United States, and the Old Country. The territory of the field representative is being enlarged and he is now in Texas stimulating interest in B.C.

British Columbia, Mr. Rowbottom warned, must put its own house in order to receive visitors. Large scale campaigns will start when labor and materials are available, but the general standard of accommodation must be raised.

On behalf of the board, Mr. Rowbottom was tendered a vote of thanks by the vice-president, A. W. Howlett.

The meeting observed a minute's silence in memory of the late C. A. Cottorelli, a frequent visitor to Vernon.

Fines Levied For Failure To Grant Right Of Way

Orli Lewicki pleaded not guilty to a charge of failing to give the right-of-way to another car when he appeared before Magistrate William Morley in City Police Court. On the evidence presented he was found guilty and fined \$15 and costs.

The charge was laid after a collision on the corner of Elm Street and Leithman Avenue. Gerald Tucker appeared before the magistrate on a charge of failing to give the right-of-way. He pleaded guilty and was fined \$20 and costs. This charge was laid after a collision on Thursday of last week when a car driven by the accused collided with a car driven by M. W. Prowse.

Armstrong Girls' Groups Attend Special Services

ARMSTRONG, Feb. 19 — Canadian Girls in Training, Trail Rangers and Explorers as a group attended the morning service in Zion United Church on Sunday. Rev. R. J. Love chose as his sermon, "Salute Tomorrow," in which he impressed upon the young people the place which Christ seeks in every heart. To illustrate his sermon, Mr. Love used a reproduction of Holman Hunt's famous painting, "Light of the World."

W. Idle, who was 96 years old last April, has been confined to bed for over a week but his many friends were pleased to learn that his condition is now slightly improved.

Mrs. R. J. Love left Thursday to spend a month with relatives in Winnipeg.

Mrs. R. M. McDonald returned last week from a month's visit at the home of her daughter in Seattle.

FO. J. W. Douglas is listed among those on the Queen Elizabeth which will arrive in New York this week.

A. Bennett left last Wednesday to visit at the home of his daughter in Victoria.

Rev. S. Redman, of Oliver, was elected president of the Kamloops-Okanagan Presbytery of the United Church of Canada at the meeting held in Penitence last week.

Rev. R. J. Love, of Armstrong, was re-elected secretary for the fourth year and W. Nyles of Vernon was elected treasurer.

Mrs. Somers, who has spent the past two months with friends in the Valley, left Thursday for her home near Winfield, Alberta.

Pte. Ernest Henderson, of Chilliwack, spent weekend leave with his mother, Mrs. W. Henderson, Sr.

Assault Charge Dismissed

A charge of common assault laid against M. Schaffer was dismissed by Magistrate William Morley in City Police Court on Saturday afternoon. The complaint was laid by Roland Auger, a 17-year-old with whom Schaffer had come to blows on Thursday evening of last week.

On hearing the evidence, Magistrate Morley questioned whether Schaffer had struck the first blow in the altercation and gave him the benefit of the doubt.

Tragedy Lurking

Attempted suicide is a crime under the law. Yet on Barnard Avenue and other Vernon streets there are more suicide attempts every day of the week than can be recorded. With snow and ice conditions as they are, car driving holds many hazards. These hazards impose on both motorists and pedestrians a grave responsibility for caution. During the past few weeks, there has been a noticeable tendency among pedestrians to place the onus completely on the motorist. That there have not been a number of serious accidents is probably due more to benevolent fate than to anything else.

Pedestrians are crossing streets at almost every point except the intersection crossings. This is particularly so on Barnard Avenue and motor traffic on the city's main street is becoming increasingly heavy. A dangerous practice is growing rapidly worse. Unless something is done to remedy unthinking carelessness on the part of pedestrians, tragedy is likely to enter some Vernon home needlessly.

If the adult members of the community do not show common sense in this matter, it is hardly likely that children can be expected. If an adult is struck down when jay-walking it will not be because of not knowing better. If a child is the victim, it will be the result of bad example.

Keep On Balance

Canadians who are motivated sincerely by the desire for a peaceful, progressive world, "One World," it has aptly been called, will not become unduly excited by the sensational developments from Ottawa over the weekend. The most disquieting possible situation would be the revelation that Canadians have been implicated against their fellows. The form of the announcement and the stature of the officials making it in itself is sufficient proof that involved here is no mere "witch hunt."

The history of espionage and counter-espionage is as old as history itself. In its more lurid aspects it has formed the basis of folklore, of countless stories, books, movies. Today every major nation in the world maintains security systems for the sufficient reason that knowledge is power. Consider, for instance, how valuable would have been an accurate forecast of Japan's methods of jungle warfare in the dark days of 1942. Perhaps with that knowledge the United States, the Dutch, and the British would have resisted Japan's rapid and totally unforeseen program in the South Pacific.

The world's collective security scheme as embodied in the United Nations organization and its affiliates is a start and the world's hope, but in its infancy it cannot be expected to replace the age-old standby which nations have sought their own individual well being.

Other evidence is to hand. For generations, the United States, alone of the great powers, boasted that it maintained no network beyond its territorial confines. The handicaps under which that nation was placed were vividly revealed in the recent war, and as a result the U.S. has announced the retention of its "office of strategic services."

Part of the interest in Canada's "spy ring" is only natural, inevitable curiosity. What Canadians must be prepared to resist are attempts that surely will be made to turn the present excitement in to an anti-Russian hatred society. Let us not lose our sense of proportion. Canada is the third member of the Allied nations entrusted with part of the development of the atomic bomb; we had far more to do with development of radar than is generally known, or fully appreciated. Our contributions to other vital war preparations were great. As such we possess information of the highest value.

With blind prejudice as the driving force, an increasing number of people are openly voicing the conviction that "someday we'll have to deal with Russia." The disclosures in the capital may be expected to aid recruits for that crazy crusade, unless a good force of commonsense is added.

Before voicing such sentiments, people in the Okanagan Valley would do well to study a map. A glance will reveal that in any conflict between Russia and the United States we are likely to be the Belgium. Our claims to consideration, some years ago, as a site for the Alaska highway were based on the geographic fact that through this country was the most feasible route between the States and Alaska. And Alaska almost touches Siberia.

By all means let us exercise every precaution. Let us deal with any Canadian traitors in summary and just fashion. Let us strive for genuine international co-operation and collective security. Let us build the foundations of peace on high principles and let us be prepared to defend those principles whatever and wherever the challenge. But let us not deliberately foment distrust, suspicion, and hatred, whatever the real reason—religious, racial, economic.

AS I SEE IT

By Elmore Philpott

"The Okanagan Thaw"

Loud the thumping of the snow
As it drops to earth below,
Racing pools are gathering speed,
Which way they go, they take no heed;
And the gulch is big and wide,
Where we used to have our slide.

Mud is up to our high boots,
Flowers are pulled up by the roots;
I turn the earth this way and that,
I slipped, and in a pool I sat.
But what care we; now spring has come,
The earth will dry soon by the sun.

And flowers will scent the countryside,
This pleasant land where we abide.

—SARA NEWTON.

Oyama, B.C.

Scientists' Hopes Dashed

Many atomic scientists are greatly disappointed by the mild public reaction to the atomic bomb. They expected the smashing-flat of Hiroshima and Nagasaki would have tremendous impact on public thinking.

They thought that Americans and other peoples, sensing the colossal destructive power unleashed, would immediately press for total global disarmament and would begin thinking in terms of world federation or international citizenship as a means of combatting the nationalistic rivalries which make for war. These researchers formed societies and were prepared to become politicians to lead the new crusade. So far, they have stirred only a mild response.

In the early stages of the Manhattan project, some researchers hoped against hope that the atomic bomb would prove scientifically impossible. But when they became convinced through experimentation that the bomb was indeed feasible, there was no lethargy or "slow down." Rather was there a new drive and verve. Why? Because these men wanted to finish the bomb in time to have it used in World War II. They wanted mankind to have before it the awful lesson of destruction. They did not want the bomb, perfected in the postwar, to become a War Department secret, about which no one could whisper. They wanted alerted mankind to begin at once planning controls.

An encouraging start has been made—in the United Nations Atomic Energy Commission and the Senate proposals for domestic handling of atomic power. Perhaps the disappointed physicists were hoping for too much too soon.—Christian Science Monitor.

Novel Cougar Hunt

Seamus—Helmur Erickson, Malakwa settler, and his son, Emil Erickson, figured in an unusual adventure with a cougar which raided their farm. They finally strangled the big "cat" with a wire snare which they managed to drop over its head after a grim struggle.

Mr. Erickson and his son were removing the snow from the roof of a hayshed when they discovered the presence of the cougar. They were unarmed and the farmer told his son to dash for the house and bring the rifle. As the youth left, the animal started to follow him. The son immediately turned back and managed to reach the safety of the hay shed.

The cougar stalked round the wall of the low shed while Mr. Erickson and his son, in the shed, debated on their next step. Finally, fastening a snare from some wire, they clambered up the inside of the wall and waited for the cougar. Finally, after several tries they managed to spare the cat around one front leg.

While debating on how to kill the enraged animal, they conceived the idea of dropping another snare over its head and strangling it. The first time they dropped the wire, the animal grabbed it in its teeth and the two Ericksons had some difficulty in getting it free. Finally they succeeded and dropped the wire again. This time it fell over the cougar's head and the marauder was literally hanged. It was a big feline.

Heavy snow has driven the hungry cougars down from the mountains. Two days later the Ericksons shot another female which they discovered on their farm—Salmon Arm Observer.

Canadian Reparations

Canada's billion dollars worth of impounded German patents will be the subject of important consultations in London, with British and American authorities, in the near future, according to the Hon. Paul Martin, secretary of state.

While Canada heads on the disposal of enemy patents has not been disclosed, the Press is reliably informed that a plan is under consideration to place all enemy patents under public ownership and direction. This would permit of their exploitation in peace-time industry. Several electrical industries might result. One estimate has been that Canadian industrial economies can be enlarged by 40 percent by utilizing enemy patents, chiefly those formerly controlled by Germany's giant dye stuffs industry.

As the custodian of alien property, Mr. Martin will meet British and American officials at a conference expected to be held on the continent shortly. Canada is one of the principal holders of enemy patents, especially pre-war patents. Canada intends to retain its patents, it is understood. They represent the main reparations which Canada expects to obtain from enemy countries.

A difference of opinion has arisen between the Canadian and the British officials regarding the disposition of enemy patents. The bill now before the British parliament, introduced by Sir Stafford Cripps, president of the Board of Trade, would give his department authority to seize German patents. Such a step would remove these patents from their former ownership and place them in the public domain, where anyone could make use of them in manufacturing process.

The Canadian attitude is different, following the line of placing patents under the control of publicly-owned Canada or government department, which would control their production processes.

One defect seen in the British proposal is that it offers no protection against German industries reviving outside of Germany. Since, in dye and other industries German skills have been outstanding, Canada plans to establish dye industries in Canada, which might involve bringing into Canada skilled German workmen, who could properly use the patent processes and organize new industries.

This aspect of the problem is not believed to have been envisaged yet by the Canadian Government. The American attitude on the disposal of enemy patents has not yet been disclosed. All Allied industrial countries made use of German patents during the war. Under an emergency order in 1939 the Canadian commissioner of patents was authorized to grant licenses to manufacture under enemy-owned patents, designs and copyrights.—Winnipeg Free Press.

RUSSIA IN AMERICA

Here is a little note I got the other day.

"We subscribe to an out-of-town paper mainly because your article gives the other side of the international picture. I have had great faith in your statements of fact. My faith is going to be badly undermined until you give me proof of (or) authority for your statement that 'not so long ago the Russian flag flew over all of our own B.C. coast, and all of the U.S. Pacific coast as far south as San Francisco.'"

The authorities are numerous. The Encyclopedia Britannica provides complete authentication in its articles on Alaska, Bering, and many others. Any reliable history of Russia does likewise. For those who prefer their facts wrapped up in the flowers of romance, Gertrude Abernethy wrote a novel about the last Governor of Russian America, Count Rezanoff, and his love affair with a beautiful Spanish lady.

The best and most compact account that I know of is in Louis Adams, an English-born Canadian of Nations. This is a veritable gold mine of forgotten facts of U.S. history. For instance, it shows that all of what is now Canada had been claimed by formal proclamation by Denmark.

I once tested out Canadian Club audiences right across Canada. I found that less than one percent knew that our B.C. coast had passed from Russian to Spanish and only then to Anglo-Saxon ownership.

A layman need feel mortified by such lack of knowledge. In welcoming the great statesmen from all the world, at San Francisco last year, the Mayor shocked and puzzled the vast majority (including me) by declaring that five different flags had flown one after another over that great city in the past two hundred years. The delegates and newspaper people were arguing over that for days after. But there was no argument over inclusion of the Russian flag. The Russian colony in California lasted as late as 1841. There are many concrete evidences of it yet, including "Russian Hill" in San Francisco.

It is the same disregard of plain facts which makes the North American Anglo-Saxon call Asia "the Far East" (instead of Far West) that makes him subject to false myths and legends about Russia. Russia has never menaced our western nations. Russia has never attacked Britain, or France, or United States. But everyone of those powers has attacked Russia at some stage of history—some repeatedly.

France did so in Napoleon's time (mostly with a Prussian army). Britain and France did so in Crimea. We all (including Canada) did so at the end of World War I. Not only did Mr. Churchill promote 14 separate attacks on the new Russian government. In his book, The Aftermath, he admits that if he had his way he would have made a deal with the beaten German nation, immediately after November 11, 1918, whereby that country would have been given the job of invading and overpowering Russia.

Here is one bit of history I came upon in the new quarterly "International Affairs." Canada had a large share in ending the worst of the allied attacks on Russia in 1919. On January 21, 1919, the Council of Ten was busy in Paris trying to organize a more drastic war against the Russian revolutionaries. Here is the statement by Lloyd George which put the kibosh on the whole business.

"The Canadian soldiers would not agree to stay and fight against the Russians. Similar trouble had also occurred among the other allied troops. If the British tried to send any more troops, there would be mutiny."

What the buck-private Canadian soldier has been doing in actual fronts in far northern Russia, battle-scarred young soldier M.P.

Letters of Interest

Protests Change

Mr. Editor: In a recent issue of your paper we find that our City Fathers are attempting to change the names of the streets in Vernon to avenues and numbers. A great many of our citizens are asking the question—why? Has our City Council a mandate from the people for such a drastic action in flouting the memory of our "Old Pioneers," those that paved the way for the very existence of every member of the Vernon City Council today. Do we want to erase forever the memory of those men for whom many of the streets were named after? I think not.

I would mention a few as follows: Dewdney, our first Government Agent, Price Ellison, our genial member of the Provincial Parliament for such a number of years, Mara, our M.P. at Ottawa, A. G. Fuller, the first Manager of the Hudson's Bay Company in Vernon; P. F. Lankille, the early Presbyterian Minister, who made the trip every Sunday to Kelowna for morning service, stopping in the afternoon for service at the Poellil Ranch and preaching again in Vernon in the evening; Jim Schubert, one of the earliest settlers in the Okanagan whom every one loved and respected; Girouard, the oldest settler in Vernon, known and respected by everyone. Frank Barling was honored with having the main street named after him, being the owner of the "BX Ranch." Vernon itself was named after the Hon. A. G. Vernon, owner of the Coldstream Ranch and at that time Minister of Public Works for B.C., and last but not least, Ed. Tronson, the owner of the "Victoria" Hotel, the only place of refuge for the old ranchers when they came to town.

Genial citizens of our lovely City, I implore you to bombard our City Council with protests against the unjustifiable desecration on the part of our City Council in their endeavors to obliterate for time and posterity the memory of these Old Pioneers mentioned when today such men are so scarce. I am rather surprised at the Mayor lending himself to such a transaction. Can anyone imagine the following gentlemen sitting in the Mayor's chair attempting such a scheme as this without a mandate from the people, such as, W. F. Cameron, Jim Martin, W. T. Shatford, W. R. Megaw, C. F. Costerton, W. H. Hendon and many could be mentioned. These men were all outstanding citizens of our City and at all times conducted the business of the City in a Democratic manner.

I wonder if any other city in British Columbia is content to change their street names to avenues and number and blot out the memory of its early citizens?

Kelowna has its Bernard Avenue in memory of its oldest citizen, Bernard LeQuime. Pender St. perpetuates the memory of its first Catholic Missionary. The same principle that applies to Vernon applies to any other City. Would London change the name of "Trafalgar Square" and erase the memory of Lord Nelson? Ask an Englishman.

Thanking you, Mr. Editor,
W. A. CRYDERMAN,
Vernon.

Stern Times

Repairs which to be made to hundreds of thousands blitzed London homes are being delayed because of the British worker's unquenchable thirst for his cup of tea. A report from London says that so much time is being lost by knocking off for tea every morning and afternoon that regional building committees made up of employers and workers have issued a circular urging that tea drinking be reduced to a minimum. Stern Times call for stern measures.—Winnipeg Free Press.

finished in Parliament. In his very first speech in the House of Commons Captain Charles Gavan Power, Minister of Air, demanded the recall of the Canadians in Siberia. He won.

There is a lesson in all this. Anybody who imagines that Canadians would be parties to an attack on Russia is wrong, and, history is any guide, Russia will never attack us.

TEN YEARS AGO

Thursday, February 20, 1936

The Okanagan Valley Creamery Association and butter makers in Salmon Arm and Kelowna are fighting a five cents a pound reduction in the price of butter made by Swift Canadian Company at Kamloops—Vernon's water supply is running short and chairman of the olive water committee has requested householders to reduce their use of water.—The annual report of the Vernon Jubilee Hospital Association reveals that the hospital financial position is the best it has been for 13 years. During 1935 there was surplus revenue of \$7,970.—An increase of \$7,000 over last year is shown in the School Board estimates of \$72,100 for 1936.—Vernon and Lumby played the Okanagan Valley Hockey League play-offs starting tonight, Thursday.

Twenty Years Ago
Thursday, February 18, 1920

Crowds of people gathered daily at the station to witness the arrival from Kamloops of the C.N.R. gas car, which made its first run on Saturday last.—A local branch of the Canadian Legion is expected to be moved to this city.—Providing sufficient money can be obtained in Vernon, a cannery will be erected in the near future by the Dominion Cannery.—A million and a half feet of logs have been cut in the Salmon Valley district this winter.—The Vernon Board of Trade is pressing for the election of a box factory here.—F. Botsch, of this city, has won high prizes with his Leghorns at the Alberta provincial poultry show at Edmonton.

Thirty Years Ago
Thursday, February 20, 1910

The city council has appointed a committee to purchase and look after the old Turner house, which is being purchased from overseas.—The South Vernon Growers' Protective Association has decided to purchase a power sprayer to control orchard pests in that district.—Word received here this week states that the Hon. Martin Burrell, member for this district, is recovering from serious burns received when the Dominion Parliament Buildings were burned to the ground recently.—The formal organization of the Vernon branch of the Women's Institute will be held here early in March.—The Vernon hockey team is leading its Armstrong rivals three games to two in the Okanagan League.

Forty Years Ago
Thursday, February 20, 1900

A bill asking for the extermination of wild horses in this province has been introduced into the Legislature by Price Ellison, member for this district.—Taxes in the city at a 20 mill rate are expected to yield the sum of \$10,144 for the current expenditure.—The famous Bonnevillie property at Lumby has changed hands for the sum of \$4,500. The new owner is an Alberta resident.—Arrangements have been completed for the transfer of stock in the Okanagan, another local newspaper, to several prominent Liberals.—D. M. Galleff reports that he has about 2,000,000 young tomato plants in hotbeds to yield the sum of \$10,144 for the current expenditure.—The newly formed Vernon Farmers' Exchange are being picked rapidly by local people.

Fifty Years Ago
Thursday, February 20, 1880

Cattle have come through the winter in remarkably good condition and stockmen of the district say that this year promises to be an excellent one.—Two Indians sent down from Vernon to the Kamloops jail last week charged with smuggling goods into Canada, made a dash for liberty on Friday but were soon recaptured. A reward was offered and the men were run up by another Indian. Butters, apples, plums and other goods are showing signs of bursting into bud and snow is rapidly leaving the higher hills.

Who Wants To Go Back To Candles?

THE ladies sometimes like the dim, flattering light of candles. But most people, even if they could get far greater illumination from candles at far less cost, would prefer electric light.

Considerations of health, comfort, convenience, cleanliness and safety, have become more important to the modern way of life than the factor of cost.

Nevertheless, it costs money to survey new power sites, harness waterfalls, and build transmission lines, so that when you flick a switch or set a thermostat you can be sure of light and heat at your fingertips. Quite possibly a part of your own Life Insurance premium has been

invested in the public utilities which render these services.

Government supervision of all such investments safeguards the money laid away by more than four million thrifty policyholders, united for their common security in the great co-operative business of Life Insurance.

25¢ This portion of every dollar invested out of Life Insurance funds helps to finance thousands of building and transportation projects, public utilities, industries, etc., which create employment throughout the country. The remainder is in municipal bonds, farm and town mortgages, etc. In addition, \$500,000 is paid out in direct benefits every working day to policyholders or their loved ones.

It is good citizenship to own LIFE INSURANCE

A Message from the Life Insurance Companies in Canada.

The Canadian Bank of Commerce has pioneered by opening branches with the first rush to new mining fields, Cariboo, the Yukon, Cobalt, Northern Ontario and Quebec, Flin Flon and Yellowknife are only some of the names associated with its service to the mining industry.

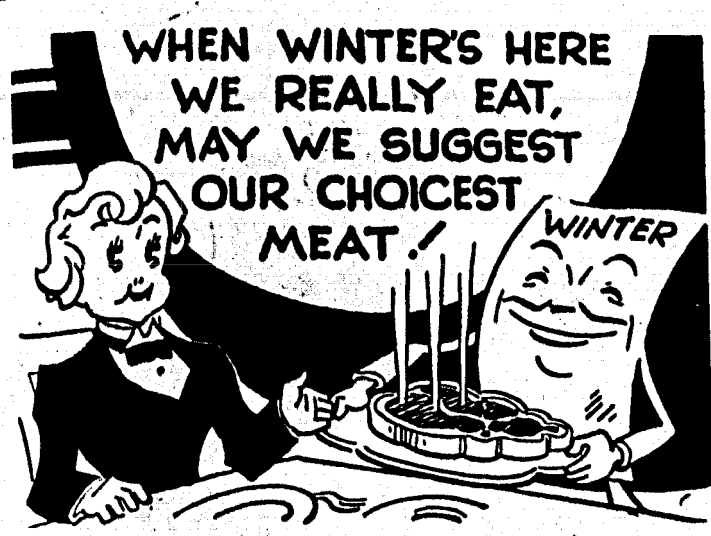

THE MINING INDUSTRY contributes directly to the national wealth of Canada by the output of its mines. It also influences the economy of the entire Dominion; for it creates widespread employment, purchases great quantities of food, clothing, machinery and equipment all over Canada, and builds and maintains whole communities which in turn add to Canada's prosperity.

In its day-to-day operations mining requires many banking services. This is Banking in Action.

Kelowna Area Prepares for Mail Service

KELOWNA, Feb. 16.—The city engineering staff has been given the "green light" to proceed with a complete re-numbering of the local streets and avenues so that a letter-carrier service can be instituted the moment official word is received from federal postal authorities. It was stated unofficially at the Council meeting that Vancouver postal officials had received a letter from Ottawa, stating the distribution of mail in Kelowna was considered a "serious one" and that a letter carrier service should be started in the city even before an extension is built to the present post office.

During the discussion, local aldermen and heads of civic departments agreed that the renumbering must be undertaken before the carrier service is started, and while the new system will entail a great deal of extra work, the heads of the departments resigned themselves to the fact it is a "must" project. Members of the Council unanimously passed a resolution requesting members of the Junior Chamber of Commerce to assist the engineering department in the renumbering system.

The letter carrier question came to a head some time ago after the Board of Trade submitted a plan for the re-numbering of the streets, and postal officials from Vancouver inspected the lay-out of the city. At that time, they pointed out, before a carrier service could be started, the post office would have to be enlarged, and the present street houses renumbered, with each residence equipped with a letter box.

Argentina is now using less corn for fuel because of larger imports of coal or petroleum. Remaining stocks of corn in the hands of the Grain Regulating Board are said to be small.

EPHAZONE
"IT ACTS QUICKLY"

He Built It... Just a Little Too Big

Eddie Potzel, of Philadelphia, is puzzled. He tired of waiting for his 1946 model from strike-bound auto plants and built his own low-slung sedan from five makes of cars. It cost him \$357. "But," he says, looking at it, "how am I going to get it out of the shop?" It wasn't until he had completed the job that he realized it was too big to pass through the doors. "Anyway," he said, "I've got me a new car."

Embargo on Fishing for Kokanee in Okanagan Lake Demanded by Sportsmen

That commercial fishing for kokanee in Okanagan Lake be prohibited entirely "to prevent a serious depletion of the fish," is the recommendation made by C. H. Robinson, Fisheries Supervisor, B.C. Game Commission, following intensive investigations made last autumn.

A copy of Mr. Robinson's report to the Commission has just been received by the executive of the Vernon and District Fish Game and Forest Protective Association. In view of the efforts made by the local sportsmen's group over a period of years, which now appear to be near success, Mr. Robinson's report will be found of intense interest to residents of the North Okanagan.

Game Commissioner J. G. Cunningham, who also attended the investigations, declared that "the numbers of fish observed do not warrant continuation of the present system, and I would recommend that no further permits be granted until at least the four-year cycle has passed, during which time further investigation should continue. The Commissioner emphatically observed that "the time has arrived when commercial fishing on Okanagan Lake should cease."

The reports and recommendations by Messrs. Robinson and Cunningham have been forwarded to J. G. Alexander, assistant commissioner, Provincial Fisheries Department. His report will be presented this evening, Thursday, to the annual meeting of the Association in Burns Hall. It is in part as follows:

"My findings are based upon the following facts: The spawning areas around the north end of Okanagan Lake, within a radius of twenty miles from Okanagan Landing by road and foot, that with the exception of two small spawning areas situated approximately one mile below and south of Carrs Landing, the average run of Kokanee at other places (this season) was only sufficient to seed adequately the available spawning areas, in order to maintain the future supply of kokanee about four years hence.

"The spawning areas frequented by the parent kokanee may not be very productive, and to allow for this, sufficient seedling of all spawning grounds should be permitted. "From a check up during the first part of the spawning period, the male kokanee predominated to at least five to one female, and two weeks later the male fish averaged just over three to one female. The period of spawning is not lengthy and after two weeks about 50 percent of the kokanee had died. The remainder on the spawning grounds at least 25 percent of the fish had seriously deteriorated and were unfit for human consumption.

"As all kokanee fishermen (I concealed) enjoy the same privileges, it is very doubtful if commercial fishing will be confined to two men as during this season. Therefore if more men fish commercially, together with the available supply, then a serious depletion will occur.

"The present regulations in force protect the kokanee when spawning in streams, this now appears one-sided, in view of the fact that water conditions have compelled the majority of kokanee in Okanagan Lake to revert to beach spawning, so it seems only fair and right that these fish should receive some protection, as well as those that spawn in streams.

"Climatic conditions do to some extent govern the commencement of the kokanee spawning, so it seems rather difficult to set a certain date each year when these fish can be caught with impunity, also when the season should terminate. In accordance with the information supplied by J. Thorlakson of Vernon, who fished commercially, as referred to herewith, Kokanee Okanagan Lake. The commercial fishing dates for the last five years commenced as follows: 1940, October 7; 1941, October 11; 1942, October 10; 1943, October 5; 1944, October 14; 1945, October 15.

ably considered, then the only alternative would be to permit the capture of the kokanee for private domestic use only, for a period of ten days only. Probably from October 15 to 24 inclusive would be satisfactory, unless the Regulations could be elastic to set the dates according to commencement of spawning."

Grindrod News Items

GRINDROD, Feb. 18.—Sgt. R. E. Hyam came in from Lethbridge, Alta., on Saturday to spend a few days leave at his home here.

Tom Mackysmchuk came in from Vancouver on Saturday after having received his discharge from the Army.

Mrs. J. Bailey and Gunner A. J. Bailey were business visitors to Enderby on Friday.

Mr. and Mrs. R. Hadow were business visitors to Enderby on Saturday.

John Romanuk spent the weekend visiting his brother returning to his work in Revelstoke on Sunday.

Mr. and Mrs. M. Smaha spent Saturday in Armstrong on business. Gunner A. J. Bailey was a visitor to Vernon on Saturday.

The pupils of Division I of Grindrod School entertained their parents and friends at a Valentine Tea on Thursday. A very interesting and entertaining program was put on after which games were played and tea served to the guests.

The Grindrod "Hoboes" and the Grindrod "Skunks," school boy teams, held an impromptu hockey game here on Friday. The Skunks winning 11 to 7.

Pte. J. Folkard of Vancouver is spending a few days leave at his home here.

Switzerland's winter grain seedings are considerably larger than last season, and prospects for spring planting of general crops appear satisfactory. It is expected that seed requirements can be met and that the supply of agricultural machinery will be adequate.

Cameron Report First Business Of Legislature

Immediately upon the Premier's return from Ottawa, the Cabinet commenced a series of meetings in preparation for the forthcoming Session of the Legislature. At the present time, the various ministers are immersed in matters appertaining to the estimates.

Many measures of major importance are expected to be introduced at the forthcoming Session, not the least of which will be the implementation of the Cameron Report, relieving municipalities to the extent of more than \$4,500,000 annually. Another measure of outstanding importance will be the introduction of a bill authorizing the B.C. Power Commission to borrow a further \$10,000,000 so as to enable them to carry out their rural electrification and power development program.

Social Assistance

A choice of three plans of provincial assistance in the provision of social service workers is being offered municipalities by the Provincial Secretary's department in an effort to arrive at a uniform system of social assistance in the municipalities throughout the Province. It was announced by the Honorable George S. Pearson, Provincial Secretary.

Regulations giving effect to the intentions of the Social Assistance Act passed at the last session of the Legislature provide that the Province will:

In the case of municipalities with a population of 10,000 or over, provide worker for worker, as is now being done under the arrangement with Victoria, Vancouver and Burnaby;

In the case of a municipality with less than 10,000 population, provide workers on a basis of 15¢ per capita per annum (1941 census).

If a municipality is employing its own workers, pay half the cost. This new system, effective January 1, is being introduced gradually. The province is suffering from a temporary shortage of social workers. This condition will be relieved by the University of British Columbia graduating class, which will be ready for field work in May, E. W. Griffith, assistant deputy provincial secretary, said recently.

Municipal Survey

The survey of Provincial-Municipal responsibilities to be undertaken by the Royal Commission will get underway shortly when H. Carl Goldenberg of Montreal arrives at the Coast, Premier John H. R. announced during the past week.

Mr. Goldenberg was due to arrive here Sunday. His appointment as the sole Commissioner awaits Cabinet confirmation by order-in-council.

Mr. Goldenberg will consider principles of inequalities in financial responsibilities of the province and municipalities; claims of the municipalities for a larger share of motor vehicle and racing taxes, and liquor profits; recommendations regarding municipal taxation of Crown property, and equitable distribution of social service costs and related matters.

Sugar Shortage

As a result of the sugar shortage, it is expected that nearly 75,000,000 bees will become extinct and British Columbia's honey crop will be the loser by 500,000 pounds, it was announced by Hon. Frank Putnam, Minister of Agriculture, who for some time has been pressing for a more generous allowance to apiarists.

However, the pleas of the department have not been met, with the result that this phase of agricultural production is expected to suffer greatly.

North Okanagan Beef Cattle Growers Meet Here Saturday

The annual meeting of the North Okanagan Beef Cattle Growers' Association is to be held on Saturday of this week at three p.m. in the office of M. S. Middleton, district horticulturist.

Business will include the presentation of the financial report, the election of officers and the discussion of general business.

Lt.-Col. A. W. Duck Commanded Rocky Mountain Rangers

KAMLOOPS, Feb. 1.—Lt.-Col. W. Duck has assumed command of 2nd Rocky Mountain Rangers succeeding Lt-Col. George H. Ellis M.C.I., who has retired from the army.

The official handover occurred

this week upon Co. Duck's return from command headquarters, who

This new program, the Rocky Mountain Ranger, a brigaded unit of the Seaforth Highlanders of Canada, Vancouver, and Canadian Scott's regiment, Victoria, to form the 15th brigade. The R.M.R. will be the only infantry formation in the interior of the province.

Regional Officer

(Continued from Page One)

and to set a fixed rate of taxes. Calgary followed this lead.

In order to take a small farm, under the V.L.A., the applicant must prove his qualifications. If without necessary qualifications, he is asked to place himself with a farmer approved by the V.L.A. department for training. When it is judged that he has the qualifications to farm, his application is then considered. There are at present 19 men taking farm training in the valley.

A man applying for a small holding is asked to appear before the regional advisory committee and then his qualifications as a small holding operator are assessed. The Okanagan committee is formed of prominent farmers in the valley.

"Every case is individually considered. There is no mass establishment," Mr. Munro said.

There has been a rush for small holdings with houses, the speaker revealed. The reason for this is the acute housing shortage. Many men have applied for small holdings whose plans for the future are not as well established as they should be. This he declared to be inadvisable as they have just one chance to make a go of the small holding plan under the V.L.A.

Mr. Munro said that he knew there was a good deal of criticism for the slowness in handling V.L.A. affairs. He admitted that much of this criticism was justified but shortage of supplies and the time it has taken to build up an adequate office staff has been mostly responsible.

As an indication of what has been done, it is estimated that by the end of April 100 men will have been established in the territory covered by the Kelowna office.

He advised veterans planning to purchase land and seek V.L.A. assistance not to take the option until they have the qualifications to meet V.L.A. requirements. Also, the V.L.A. appraisal must be made before the department can take action. If a man buys land before the V.L.A. appraisal, the department cannot then enter into an agreement. The value of the land cannot be used towards the 10 percent cash down payment required of the veteran.

So far as the houses on the Sherbourne Avenue project in this city are concerned, Mr. Munro said that the price of the houses as yet has not been announced. There are only ten applications in for the houses so far. First preference is given to overseas veterans.

In order to meet with Vernon ex-servicemen who are interested personally in the houses here, Mr. Munro will be at the Council Chambers in the City Hall next Tuesday evening, February 26.

During the business meeting of the Legion, E. W. Prowse, president, and H. P. Coombes were named to represent the Vernon branch at the provincial convention in Vancouver next month.

Donald Harrop appeared before Magistrate William Morley on Wednesday morning of last week charged with obstructing a police officer. He was found guilty and given a three-month suspended sentence and ordered to pay court costs.

The charge was laid following a disturbance on Barnard Avenue the previous Saturday night.

LETTERS

Of General Interest

Questions Bradford Letter

The Editor, The Vernon News.
Sir: With reference to Mrs. Bradford's letter in your last edition: I agree with her, it is a pity that so many unfortunate remarks about Russia should be made at such a time but would remind her that Russia has of late been rather asking for surely believe it is true to say that Russia is unwilling, or even refuses, to allow reporters to travel freely in her territories and occupied zones. Britain, on the other hand, offered every facility and even invited investigators to go to Russia. When Russia put Mr. Bevin back up properly, I also wonder if, or for how long, Mrs. Bradford has lived in Russia that she apparently finds it superior to England and Canada. I feel sure that she would find that what has been said of him or her who:

"...praises in enthusiastic tone Every century but this one, every country but his own."

—because she is obviously intelligent if, I suspect, misguided. Mrs. Bradford appears to have been exceptionally unfortunate in her work. I do not know her circumstances but wonder that she did not try for some other kind of employment. For instance, people were crying out for domestic help. It would be interesting to know the name of the firm in question. I happen to know someone in England who might be interested in starting an investigation. The Factory Acts, I understood, took care of the sort of thing but perhaps there have been ways of getting around them.

Wages are lower in Britain than on this Continent but not generally so low. On the other hand, living expenses are also lower. It might be remembered, too, that Britain had no easy time between the last two wars and that probably no country would have done better in the circumstances. A Labor government had its chance during that time but, unless I am mistaken, it did not accomplish a great deal. It might be added that the standard of living in Russia even now is generally supposed to be lower than that of the western democracies.

As for freedom in Britain: I hope she is right in assuming that the "common people" are really progressing towards freedom because at the present moment I should think that they never had less of it. Government factories were well run, yes, but what happened when a worker wished to work elsewhere? Registration is unfortunately necessary in wartime but it is to be hoped too much of it will not continue.

Among the greatest qualities of the English, or British, are individuality, enterprise, pluck and endurance and with too much "direction" and spoon-feeding by social services there are likely to atrophy. Slaves may be well cared for, they are slaves none the less.

It is because I have known and admired many of these "common people" that I am interested in and hope for the best for them. If the Russians have really discovered a panacea for all political evils, let us by all means and with gratitude learn from them, but first, let us be very sure that what

happened to the people who have set up the latest and most modern form of government. And it is no longer an experiment, it works. It has been to the advantage of that country for almost 30 years.

I do not say that we require the importation of pattern from outside. But the remark in open letter reminds me of those men who had blood poisoning in their arms. They were both in deadly fear of having their arms amputated because in those days they had no chloroform. But it had to be done.

Upon reaching the hospital, they heard that there was a foreign doctor who put his patient to sleep before operating. One said that the old way was good enough for him. He didn't believe in those new ideas. He might not wake up. The other consented to be put to sleep. They both had their arms amputated. One felt no pain at all during the operation while the other had a very tough time. The new idea was O.K. and everybody uses it to advantage.

To admit that Canada and the United States have a little unemployment "right now" seems to suggest that it is only temporary. Evidently the writer does not converse much with the average working man and woman. If he did he would find that few workers believe in full employment in the future under the present system.

If anyone who reads these lines should see it to publish some good concrete reasons why we should expect full employment in the future and under the present set-up I am sure it would be welcome news.

Now, dear folks, do not misunderstand me. I do not blame our economy as much as I blame the majority of the electors who are letting vested interest make up their minds for them. Let us be honest. Another five or six years had before the war will give a lot of people the notion they should do their own thinking for a change.

R. L. SOOQUET,
Vernon.

Borrowing Can Be
Very Good Business

If you want to make your farm more productive, more profitable, you may be well advised to borrow money, if the purpose of the loan is sound, your borrowing can be very good business.

For instance, you may need a new plough, a new tractor or a new barn. You may want to repair or remodel your farmhouse or other buildings. If you want to install an electric or heating system or improve your present one.

For these and a score of other purposes, a B. of M. farm improvement loan may be the answer to your need. If you want to make your farm a better farm, why not call on Mr. McDowell, manager of the B. of M. fund, and discuss your plans with him in confidence. His farming customers are borrowing the money at very low cost and repaying it over extended periods.

OF INTEREST TO WOMEN

Preserves Ration Same as for 1945

Exactly the same amount of preserves may be obtained this year for one rationing coupon as were obtained during the last eight months of 1945 for two. The housewife is not losing by the new arrangement, but is gaining in the matter of choice.

This is pointed out by Wartime Prices and Trade Board officials to clarify confusion among many purchasers.

During the latter part of 1945 one sugar coupon per month permitted purchase of one pound of sugar and two preserve coupons gave the option of preserves or a half-pound of sugar each.

This year the housewife has the option of using her two sugar coupons for purchase of a total of two pounds of sugar, or one pound of sugar plus preserves, or all preserves.

Coupons 70 and 71 fall due today, Thursday, and may be turned in for sugar, fruit, honey, jam, jelly, maple sugar, maple syrup, marmalade, molasses or syrup.

Chief Guide Here In May

Lady Baden-Powell, Chief Guide of the World, and widow of the founder of the Boy Scout and Girl Guide Movements will arrive in Canada for a tour of the country in May.

VICKS VAPOROL

Governor-General Sees Brigade Work

An interesting moment in the final visit to Montreal of Their Excellencies The Earl of Athlone and H.R.H. Princess Alice, before returning to England is recorded in picture above. The Governor-General is shown observing a demonstration of blood grouping, one of the many phases of St. John Ambulance Brigade work, at the Sir Arthur Currie Memorial Gymnasium recently. Miss Athlone Charlevoix is giving the demonstration. From left to right are: Col. C. Paul Gabor, M.D., Provincial Commissioner of the Brigade; Miss Charlevoix; Capt. Neville Usher, aide-de-camp, and The Earl of Athlone.

Girl Guide Association Reports Excellent Year

The annual meeting of the Vernon Girl Guides Association was held at the home of Mrs. Price Ellison, at the invitation of Mrs. H. deBack, on February 13 at 7:30 p.m. In attendance were 23 members, Guides, and pack leaders.

Mrs. H. L. Courser, the district commissioner, presented a general report on the activities of the past year. During that time, she held three enrollment meetings. On October 11, 11 Guides were enrolled, three received their First Class badges, four received their Second Class badges and one received her Entertainer's badge.

On October 18, two Rangers were enrolled as Guides and on November 8, 14 Rangers were enrolled. Six Guides received their Second Class badges and one Guide was awarded the Horsewoman's badge.

The commissioner's report revealed that the Guides also participated in community work. They sold Cancer Stamps for the I.O.D.E., and also helped in the I.O.D.E. tag day. On Poppy Day, they assisted the Canadian Legion Women's Auxiliary and again tagged for the Canadian Institute for the Blind. On the two tag days in which they participated, they collected a total of \$94.37. The Rangers canvassed for the Salvation Army and tagged for the I.O.D.E.

Progress reports were submitted to the meeting by Capt. Betty Husband for the 22nd I.O.D.E. Company, by Acting Lieutenant Joan Husband for the 1st Coldstream Company, by Capt. Mrs. S. Gray for the 1st Vernon Ranger Company and as Badge Secretary; and by Miss G. Nichols, Eagle Owl, for the 5th I.O.D.E. and 1st Vernon Brownies.

The 22nd I.O.D.E. Company reported an increase of from 29 Guides to 60, a great many having come up from the Brownies. In future there is to be a Guide waiting list preference will be given to Brownies.

The Brownies have had a most active year. Nine Golden Bars and three Golden Hands have been earned and an exceptional number of proficiency badges were won. Outstanding in this regard was the work of Mary Marshall and Joan Courser.

The Ranger Company showed an increase in numbers and was a number of honors in the field of sport, the highest of which was a cup for softball.

They also assisted the captain of the Guide Company in many ways, giving instruction in knot, first aid and more. Also they helped very ably at camp time. The Rangers have devoted time to helping collect information at the Elementary School in the nutrition survey.

In one subject that has been stressed as most important by provincial headquarters, more photography, the Rangers have secured expert instruction from a former navy wireless operator.

In the election of officers, Mrs. W. D. McTaggart was named vice-president; Mrs. J. A. Manson, treasurer; Mrs. C. W. Husband, secretary and Mrs. S. Gray, public relations secretary.

Considerable attention is being paid to bringing the work of the Guides and Scouts before the public during "Thinking Week," February 18 to 24. The Girl Guide Association is sponsoring a four-day and three-night camp, to be held at the home of Mrs. T. H. Gray, and the head of training, Miss Hannah, are visiting in Vernon February 20-24.

There is to be a rally in the Scout Hall this evening, Thursday, at seven p.m., to which Armstrong and Lambly Guides have been invited. The local association and parents of the Guides also are being invited to attend. On Sunday there is to be a church parade to All Saints Church at 11 a.m.

Weddings

On February 5 at 2 p.m., Irene Lyle Desjardins, daughter of Mr. and Mrs. Omer Desjardins, became the bride of William Frederick Hoppe, son of Mr. and Mrs. Gustav Hoppe, Coldstream. The double ring ceremony took place at Peace Lutheran Church, Vernon. Rev. J. Propp officiating.

The bride was given in an afternoon gown of white wool. She wore a chapel veil and carried a Victorian nosegay of pink and white carnations and fern. She was attended by Mrs. Elma Hoppe, who wore a gown of pink crepe. Ewald Hoppe was his brother's best man.

The couple plan to make their home in Ontario.

A very pretty candle-light wedding ceremony took place at Peace Lutheran Church on February 5, at 7:30 p.m., when Ida Elizabeth Obermeyer, only daughter of Mr. and Mrs. Joseph Obermeyer, Vernon, exchanged marriage vows with Edo John Frederick Leslie Rykman, son of Mr. and Mrs. Henry A. Rykman of McManisville, Quebec. Rev. J. Propp officiated at the ceremony.

The bride was dressed in a dressmaker suit of robin-egg blue, complemented by a corsage of white carnations and fern. She was attended by Miss Audrey Ostankow, who wore a suit of ecru-beige.

The groom was supported by the bride's brother, Ben Obermeyer.

Mr. Rykman is reported to have inherited wheat acreage from 800,000 acres in 1943 to 800,000 acres in 1945.

Enderby Greet Oldest Resident On 92nd Birthday

ENDERBY, Feb. 18.—A host of friends visited the home of Mrs. Robinson during Saturday and Sunday to congratulate Mrs. Annie Hallett who celebrated her 92nd birthday anniversary on Sunday, February 17. Mrs. Hallett, who has been making her home with Mrs. Robinson for several years, despite her advanced years, has a keen active mind and is able to be about the house every day in the best of health.

Mrs. Hallett has been a resident of Enderby for many years and during that time the name "Granny" Hallett has become one very dear to all. Her many friends brought flowers, presents and cards as expressions of their greetings on such a happy occasion. Mrs. Hallett is the oldest resident of Enderby and it is hoped by all that her good health will continue.

During the years when Mrs. Hallett took an active part in church affairs she was a keen worker in St. George's Anglican Church. She has a daughter, Mrs. B. Dill, at Vancouver, and a grand-daughter, Mrs. H. A. Nolan, of Vernon.

Like Bluebirds In Spring War Brides Take To The Air

MONTREAL, Feb. 11.—With the recent arrival of eight British War brides at Montreal airport, a total of 34 English wives of Canadian servicemen have reached this country on five Trans-Atlantic flights of Trans-Canada Air Lines.

Adaskin Concert Greatly Enjoyed By Music Lovers

Vernon music lovers welcomed the return to this city of Harry Adaskin, nationally known violinist, and his wife and accompanist, Frances Marr, pianist, at a concert here in the Capitol Theatre Sunday afternoon.

The program of two major works for violin and piano and a group of three short selections was enthusiastically received, as the recall of the two musicians for three encores will testify.

Prior to the first work on the program, Beethoven's Sonata in F Major, Mr. Adaskin outlined the history and development of the sonata. In this he combined his talents as music commentator and performer. The lecture-recital is an innovation new to many concertgoers. To some it is undoubtedly highly acceptable, to others not entirely so.

The Beethoven sonata was beautifully performed though at times it was felt that the piano tended to over-dominate the violin.

The second major work was Ernest Chausson's "Poeme," which Mr. Adaskin described as one of the finest pieces of music composed for the violin. The full depth of feeling contained in this music was caught and transmitted to the enraptured audience.

The final three selections as listed on the program were "O Days of Youth," by Tchaikovsky, arranged for violin by Leopold Auer; "The Girl With the Flaxen Hair," by Claude Debussy with violin transcription by Hartmann, and "Hejre Kati," a composition by the Hungarian composer, Jeno Hubay. The three encores were Brahms' "Waltz," the Jascha Heifetz arrangement of Dvorak's "Hora Staccato" and Heifetz's arrangement of the Spanish song, "Estrellita."

In the second selection especially, Mr. Adaskin displayed his

Legion W.A. Valentine Card Party Successful

There was a good attendance at the Valentine's Day card party sponsored by the Women's Auxiliary to the Canadian Legion on Thursday evening of last week.

Winners of prizes in the whist play were Ladies' first, Mrs. Murray Ross; low, Mrs. L. Morrow. Gentlemen's first, H. Knight; low, Mrs. Lawrence Greeno, who played in the men's competition.

In the chibbag prize winners were: Ladies' first, Mrs. W. Ryan; low, Mrs. O. Greeno. Gentlemen's first, J. Carpenter; low, G. W. Pearson.

Mrs. F. Wheelhouse was the winner of the special chair prize. Convener for the party was Mrs. O. Sandgren. At the next W.A. meeting, on February 21, motion picture films will be shown.

great virtuosity.

Following the recital, Mr. and Mrs. Adaskin were entertained at the home of Mr. and Mrs. O. W. Gaunt-Stevenson by members of the Business and Professional Women's Club who sponsored the concert.

Junior Hospital Auxillary Deems Annual Party Success

The annual party for members of the Junior Hospital Auxillary was held in the Burns Hall on Tuesday evening of last week.

Following a very tastefully prepared dinner, the 79 present were entertained by games, skits and the showing of two films from the Vernon Film Council's library.

A past president, Mrs. Thelma Heggie, who has since left for the Coast to make her future home, was the recipient of a going-away remembrance from the members.

Best Distress of 'PERIODIC' Female Weakness

Make you feel miserable on such days?

If you suffer monthly cramps with accompanying cranks feelings—due to functional periodic disturbances—try Lydia E. Pinkham's Vegetable Compound to relieve such symptoms. Pinkham's Compound is a sure relief—it's one of the most effective medicines you can buy to relieve this distress.

How to Use Meat to Make Breakfasts Hearty

Cold days call for hearty breakfasts, and one of the best ways I've found to make a breakfast substantial is to include some meat in the menu. Here are some favorite winter breakfasts that will also make a special hit for Sunday brunch.

COLD MORNING SPECIAL

Tomato Juice with Lemon Wedge
Hot Apple Pancakes Rolled Around Sausage Links
Warm Syrup Coffee or Cocoa

APPLE PANCAKES—To 2 cups of prepared pancake flour, add 2 eggs and 1 1/2 cups milk beaten together. Blend well. Stir in 1 cup finely chopped apples and 2 tablespoons melted shortening. Drop by table-spoonfuls onto greased griddle or frying pan. Bake until bubbles break; turn and bake until golden brown. Wrap each pancake around a well-cooked sausage link. Serve hot, with warmed syrup. Serves 6.

WAKE UP TO THIS!

Spiced Applesauce with Raisins
Sautéed Kidneys with Mashed Potato Cakes
Buttered Toast
Coffee or Milk

SAUTEED KIDNEYS—Skin, split in half lengthwise, and remove white tubes and tissues from 6 to 12 veal or lamb kidneys. Wash thoroughly. Cut into thin slices and cover with flour, salt and pepper. Sauté in dripping about 3 minutes or until browned. Add 1 cup hot water and cook about 5 minutes, or until thickened, stirring constantly. Serve hot. Serves 6.

START THE DAY RIGHT

Baked Winter Peas
Broiled Lamb Chops and Hashed Brown Potatoes
Toasted English Muffins
Coffee or Milk

HASHED BROWN POTATOES—Melt 3 tablespoons shortening in a heavy frying pan and add 5 cups chopped or finely cut potatoes, heaping them toward the center and away from the edges of the pan; season to taste. Cover with a lid or heavy plate; press down so that cover is right on top of the potatoes. Place a cover of salt or rock on top to give pressure. Cook slowly and without turning for 15 to 20 minutes, or until crusty brown. Turn out onto a warm plate. Cut into 4 or 6 pie-shaped wedges to serve.

IDA HAD THE IDEA

IDA YOU KNOW I LOVE TO BUY ALL THE FINEST FOODS BUT WITH THESE HUNGRY YOUNG BEARS IN THE HOUSE I JUST CAN'T AFFORD IT! THEY EAT TOO MUCH!

THERE'S AN AMAZINGLY SIMPLE WAY TO SOLVE THIS PROBLEM, WHY?

YOU MEAN YOU COULD AFFORD THE BEST BRANDS? HOW?

THAT'S JUST WHAT I MEAN! YOU COME SHOPPING WITH ME TOMORROW MORNING, AND I'LL SHOW YOU!

YOU GET?

CERTAINLY DO I! I'VE HAD A SUGGESTION OF BUYING ALL OUR FOOD AT WHOLESALE PRICES. WHY LET US SHOW YOU THE MONEY TOO!

Rat the finest foods, yet save money

There's no need to sacrifice quality in order to save money on food. Buy brands you know, foods guaranteed to be the best. You'll find it all at Safeway.

You get more for your money at SAFEGWAY

Prices Effective Feb. 23 to 28

2 DID YOU SAY? **YES! 2 ARE ALL YOU NEED!**

Get VIGOR from your breakfast
Start with 2 Tablespoons of Grape-Nuts
—there's 14 to 16 servings in every package

Yes, that's all you need... two tablespoons of Grape-Nuts is quite sufficient for a serving of this cereal.

Grape-Nuts are different—made from two grains—just one. Sun-ripened wheat and malted barley, double-baked by an exclusive process to give them that delicious, sweet-as-a-nut flavor.

Because you only need two tablespoons of Grape-Nuts you can get 14 to 16 servings from every package.

Get Grape-Nuts at your grocer's.

... compounded

ELEMENTARY EDUCATION BY MAIL

THE elementary education correspondence courses cover the work of Grades I to VIII prescribed in the Programme of Studies for British Columbia Schools.

FOR CHILDREN.—These courses are available free of charge to all children in British Columbia living over three miles from a school and to those who for some good reason such as physical disability or illness, are prevented from attending school. An applicant living three miles or less from a school must include with his application a letter from a doctor or a responsible school official recommending instruction by correspondence.

Three months' work is sent out at a time in order to provide adequate material so that the pupil will not be left without work during any part of the school year. The pupil is encouraged to complete a lesson a week. This will enable him to complete his grade in the school year. When a lesson is completed it is sent to the school for correction. After it has been marked it is returned to the pupil with directions concerning any necessary corrections. As soon as a pupil satisfactorily completes the work of a grade he is promoted to the next grade and may commence his new work immediately.

FOR ADULTS.—In addition to the regular service for school children, courses in the elementary school subjects are provided for adults. There are no enrolment or tuition fees for these. An adult may enroll for a complete course or for a partial course of the subjects in which he is interested. Adult students who have the opportunity of attending night schools are expected to do so in preference to enrolling in the correspondence school, but all those to whom educational facilities are denied are welcome to enroll.

Full information, together with application forms, may be procured by writing to: The Director, Elementary Correspondence School, Parliament Buildings, Victoria, B.C.

DEPARTMENT OF EDUCATION • VICTORIA, B.C.

Aussie Babe

Baby faces operation—Cherylene Robison, two-months-old daughter of Mrs. Robert J. Robison, Australian war bride of a Virgil, Kans., ex-sailor, will enter the University of California hospital in Oakland, for a delicate cranial operation. The mother and baby arrived in the U.S.A. after an 8,000-mile flight in Army and Navy planes. The trip followed consultation with a Navy doctor in Australia who told the mother the operation was necessary to save the child's life.

Enderby IODE Reports Successful Year in 1945

ENDERBY, Feb. 18.—The annual meeting of the Sir Douglas Haig Chapter I.O.D.E. was held at the home of Mrs. T. Jeffers on Tuesday afternoon at 3 p.m.

It was decided to donate the nine pounds of cocoa to the school to be used during the winter months while they are serving hot drinks for the pupils, also to grant them the permission to use the utensils that were in the school and had been purchased some time ago by the local chapter.

The secretary read a pleasant and interesting letter from Norman Danforth who had received the I.O.D.E. Christmas parcel in good condition. It was found necessary to send only two Christmas parcels to local men serving overseas this past year, the rest had arrived home.

The treasurer reported that the chapter had on hand \$128.16 and it was decided by the members to hold a dance on Easter Monday to raise funds for the contribution to the I.O.D.E. Second War Memorial Fund.

Two new members were welcomed into the chapter, Mrs. O. Harvey and Mrs. G. Garner. It was decided to hold the March meeting at the home of Mrs. H. Logan.

One of the highlights of the afternoon's meeting was the presentation of a scroll and beautiful bouquet of daffodils to Mrs. W. Pantou who had served the chapter as treasurer during the past 12 years. The Regent on presenting Mrs. Pantou with the honor expressed the gratitude felt by the members to her for her excellent work, and long standing efficient record.

Report of Year
Miss M. V. Beattie was nominated as delegate to the Annual Meeting. The secretary then gave a summary of the activities of the chapter during the year. There were 32 members, including 10 new members. There were nine regular meetings and one special meeting, no meetings being held in July, August or December, with an average attendance of 17. A bridge drive was held on March 2, and a dance on Easter Monday, both were most successful.

Two parcels were sent off to the adopted ship "Glenader". These parcels contained books, magazines, razor blades, puzzles, playing cards and sewing kits.

Mrs. E. Harvey, who was the first Regent of Sir Douglas Haig Chapter, was given the honor of a "Life Membership" by the Order. A very successful "Baby Clinic" was held on October 22 when 21 babies were examined by the local doctor, Dr. J. Kope.

A. J. Chidley, Membership Committee; J. Cameron, C. O. Duquemin, and F. Topham, Jr. Mr. Bennett thanked the members for having him to be present on this occasion as this was the first South Okanagan Provincial Coalition Association to be formed in the constituency. He spoke of the Coalition party being strong in the house, the small communities having the co-operative spirit, and the coming session being very important, and the government having plans ready to go into effect.

The Annual meeting of the C.O.P. Club was held in the Municipal Hall, Thursday evening of last week, with H. Rugger of Summerland as guest speaker. Election of officers followed: president, C. R. Haker; vice-president, A. E. Miller; secretary, Mrs. J. H. Wilson; treasurer, Mr. A. E. Miller; organizer, K. Domi. A resolution drafted by Mr. Haker, dealing with Old Age Pensions was to be sent to the Provincial Council, Mr. Haker and Mrs. Wilson were to be representatives to the district council. Tea was served by the ladies.

On completion of 20 years as Secretary, Miss A. E. Elliott was presented with a rosette pillow by the members of the W.A. of the United Church, at the regular monthly meeting held at the home of Mrs. Twinn. Arrangements were made for a social evening on March 16, in honor of St. Patrick's Day. At the close of business tea was served by the hostess.

The winter wheat area in south-eastern portions of European Russia is reported to have been considerably increased this year; crops are said to be in good condition.

Farm Lectures Well Attended At Winfield

WINFIELD, Feb. 18.—In the Winfield Community Hall on February 11 and 12 and through the auspices of the B.O.F.A. the farmers of Winfield had the opportunity of hearing a number of speakers, who spoke on the problems of soil, fertilizer, irrigation, erosion, plant propagation, insects, diseases and sprays of the district. Among those speaking were: C. G. Kelly, B. Hoy, J. C. Wilcox, M. F. Weid, M. S. Middleton, A. J. Munn, H. Evans, R. Booth, W. Fleet, P. Venables, R. E. Fitzpatrick, R. P. Murray and H. Anderson.

Before the guest speaker Tuesday evening the local members of the B.O.F.A. held their regular meeting in the hall. The business discussed was the appointment of a placement officer again this year. It was learned that the returns to the growers for the coming year would be on the same level as last year. That is, stone fruit will be on a packed box basis, while that of the apples, pears and crab apples will be on a loose box basis.

The pupils of the Winfield public school held their regular Valentine Party this year. On Thursday the pupils of Mr. Elliott's room and Mrs. Chernick's room jointly enjoyed the afternoon participating in games and receiving Valentines from the mail box. Refreshments were served.

The pupils of Miss Helt's room spent the afternoon playing games and taking part in a small program. Refreshments were served, then came the big event of the day, the Valentine mail box. The little pupils acted as the postmen.

Sleighride Enjoyed
The members of the Junior W.I. enjoyed a sleighriding party on Friday. After an hour and a half of sleighriding on a local hill, the girls went to the home of their sister, Mrs. A. Phillips, where a buffet supper was enjoyed. Among those attending were the Misses Pauline Simpson, Jeanette and Marion Metcalfe, Joan Mitchell, Eve Edmunds, Eileen Mahoney, Yvonne Hitchman, Barbara Beck, Janice Raymer and Mary White. Miss Eileen Mahoney has become a member of the group.

A number of the residents of this district attended the concert and dance in the O.K. Centre Community Hall on Friday evening last.

Mr. and Mrs. Davy have taken up residence in this district.

C. A. Cotterell

One of Canada's best known railwaymen, recently retired assistant general manager of the C.P.R., who died at his home in Vancouver on Thursday of last week.

Death Claims C. A. Cotterell At Vancouver

After an illness of several months, C. A. Cotterell, recently retired assistant general manager of the C.P.R., died at his home in Vancouver on Thursday morning of last week. He was known personally throughout the Okanagan and his death is widely mourned in the valley as throughout the province.

Mr. Cotterell was born in England in 1877. He joined the C.P.R. as a telegraph operator at St. Constant, Quebec, and in 1898 he was transferred to the C.P.R. West Coast division in this province. At that time the line there was still under construction.

From operator to dispatcher to chief dispatcher were steps in his career. Later he was made assistant general manager of the C.P.R. division in British Columbia, as well as Lethbridge and Medicine Hat divisions in Alberta.

In 1918 he was made assistant general superintendent at Vancouver and in 1920, general superintendent. He remained in that capacity until 1934 when he was named assistant general manager. He was not a man to remain behind his office desk. He travelled extensively and maintained touch with all men who worked under him, in whatever capacity. He was so interested in the completed rail system which traverses the high passes of the Rockies and such a familiar figure in the mountain divisions that in 1938 a mountain was named after him. It is Mt. Cotterell in the vicinity of Alberta's Canadian Rockies.

Mr. Cotterell was widely interested in many of British Columbia's most progressive organizations. He was at one time president of the Vancouver Board of Trade, he was past president of the Vancouver Club, a director of the B.C. Cancer Foundation, a president of the Revelstoke Board of Trade and held numerous other posts as well.

Besides his wife, he is survived by one son, Howard, of Winnipeg; and two daughters, Mrs. George Peck, of Vale, Washington, and Mrs. E. E. Willis, of Winnipeg. His brother, B. D. Cotterell, is vice-president of C.P.R. Eastern Lines. Funeral services were held on Saturday afternoon from Christ Church Cathedral in Vancouver and interment followed in Forest Lawn Memorial Park. Very Rev. Dean Cecil Swanson, D.D., was the officiating clergyman.

DONNACONA MODERNITE

You'll be amazed to discover how little it costs to change drab bathrooms and kitchens into beautiful colourful rooms.

The beauty of Donnacona Modernite will last. Wiping the smooth surface with a damp cloth will keep it spick and span. In plain panels, tile-effects, marble and wood-pattern finishes, Modernite is available in colours to suit any decorative scheme. Call us for further information.

After BACKACHE... What a difference!

Could any woman tell a happier story about backache than this? Read how she found relief:
"About 6 weeks ago I started having awful pains in my back. At times I could not straighten myself and I got depressed and worn out. I could scarcely carry on with my household duties and everything was being neglected. It was then I saw a Kruschen advertisement and I decided to give Kruschen a trial. I started by faithfully taking a small teaspoonful in hot water in the morning, and in three weeks—my word, what a difference! The pains gradually disappeared and though I am now 48, I really feel years younger."
Mrs. H. M.
"There is always a cause of backache and in many cases it can be
